

DOG OWNERS BEWARE

Flinders Shire Council coordinates a Wild Dog (1080 poison) Baiting Program bi-annually throughout the Shire.

A number of tourist routes journey through private property and we ask that you please respect this and be aware that baits may be close to roads.

Although roads are not fenced please remain within the road reserves, to avoid areas off the road and along creeks that are targeted in our baiting campaign.

Please take care and beware while driving through our Shire.
