
4WD EROMANGA SEA BYWAY

This scenic drive takes you through a diversity of landscapes through blacksoil downs, rolling Mitchell grass plains, up to the desert uplands and the prehistoric Eromanga Sea.

About one hundred and ten million years ago a shallow sea covered what is now arid inland Australia. Australia's most beautiful and complete fossils of this period are of the spectacular marine creatures that lived in this cold sea. Why not call into the beautiful Kooroorinya Falls Nature Reserve during your trip.

CAMPING & FIRES
are prohibited
