Itinerary

Australia's Dinosaur Trail in Queensland's Outback is an exciting adventure, where you can discover the world-class fossils of Winton, Richmond and Hughenden. A journey along the Dinosaur Trail offers visitors a range of unique experiences not available anywhere else in the world, let alone Australia.

**WINTON**

**DAY 1**

Make your first stop in Winton the Walking Matilda Centre where you will learn the myth and myth behind the writing of our National song. The heritage listed Cattell and Prominae building, located across the road, houses a life-size diorama of the Dinosaur Stampedes, as well as fossil and opal displays.

**DAY 2**

Embark on an adventure 110km south-west of Winton through spectacular scenery and red-earth country to Lake Quarry Conservation Park to discover the only evidence of a Dinosaur Stampedes on the Planet. Tours start create at 10.00am, 12 noon and 2.00pm daily detailing the dramatic tale of the hunter and hunted from the footprints left behind 96 million years ago.

**DAY 3**

Today, experience the world's largest collection of Australian dinosaur fossils at Australian Age of Dinosaurs, located 24km south-east of town on top of a mesa, called The Jump-Up. Sixty minute tours, featuring the Fossil Collection Room and the Preparation Laboratory, operate daily between 9.00am and 4.00pm. Be sure to take your cameras to capture the spectacular views of the surrounding countryside.

**HUGHENDEN**

**DAY 1**

Visit the Flinders Discovery Centre to see ‘Hughie’ a Muttaburrasaurus, the amazing fossil exhibition and the Porcupine Gorge Light and Sound Show. Pick up your map with the painted ancient guides, you around Hughenden to see the impressive metal sculptures depicting Dinosaurs designed and made by local artists.

**DAY 2**

Spend time at Porcupine Gorge National Park and trek 2km to the base to savour the magnitude of this amazing Gorge system. For the 4wd enthusiast, enjoy selected drives throughout the park taking in amazing landscapes and diverse terrain. Finish the day with a trip to Mount Walker, 24km south of Hughenden for an amazing outback sunset, a popular spot for photographers.

**DAY 3**

Enjoy a 1.5km walk along the diverse bioregions of the Flinders Shelf. Take Walk on Flinders’ Along the pathway are species of flora and local artwork.

**RICHMOND**

**DAY 1**

In Richmond start your exploration with a visit to Kronosaurus Korner to discover an ancient time when this area was a great inland sea. Enjoy the 50 minute theatre presentation, and then begin your self-guided tour with the assistance of audio guides. Learn the basic facts about fossils, what to look for when you are fossicking, the preparation of these precious finds and the tax techniques used for these stunning displays. Let the kids play and learn in Kronos Kids Corner. Once you have been inflected with fossil fever, head out to one of the designated fossicking sites to try and find a fossil of your own! Any finds can be taken back to Kronosaurus Korner to be identified by the Kronosaurus Korner staff. Take an evening stroll around Lake Fred Tritton on the edge of town and wonder at the kaleidoscope of stars in the brilliant outback sky.

**DAY 2**

Follow the Heritage Walk around town and view the sites of the business precinct from yesteryear. Visit local artefacts of historical and natural significance at the Cambridge Downs Heritage Display Centre. Pay your respects to the pioneers that shaped this country at the Pioneer Cemetery, reflect at the War Memorial in Jack Brown Long Park or just enjoy a day relaxing and fishing at Lake Fred Tritton.

---

Follow in the footsteps of the prehistoric creatures that once roamed this ancient land.
Dinosaur Capital of Australia

WINTON

Home to two world class attractions, Winton is the Dinosaur Capital of Australia and the Gateway to Australia’s Dinosaur Trail.

Situated only 110km from town in Lark Quarry Conservation Park, the Dinosaur Stampede is the only known Dinosaur Stampede on the Planet; Over 3,000 dinosaur tracks are now protected inside a modern ecologically sustainable building. This National Monument is the only known Dinosaur Stampede on the Planet; Over 3,000 dinosaur tracks are now protected inside a modern ecologically sustainable building. The amazing window into our dinosaur past is on display year round for everyone to see via interpretive guided tours by specially trained on-site guides starting at 10.00am, 12 noon and 2.00pm daily. It is an iconic National Monument not to be missed.

No Winton dinosaur experience is complete without a visit to Australian Age of Dinosaurs, a working research facility that houses the world’s largest collection of Australian dinosaur fossils. Visitors take 60 minute guided tours hosted by one of the enthusiastic fossil technicians, held daily between 9.00am & 4.00pm. You can even experience the thrill of working with real dinosaur bones by joining either a Dig-a-Dino or Prep-a-Dino program.

To try your hand at finding your very own fossil, call at the Flinders Discovery Centre for a map and directions.

Fossil Capital

RICHMOND

Kronosaurus Korner must be seen to be believed, our collection of dinosaur and marine reptile fossils have earned us the reputation of being one of the finest fossil institutions in the world. Visitors young and old will be amazed and educated at this wondrous adventure as they step back in time to the age of the dinosaurs.

Kronosaurus Korner is a world class centre housing Australia’s best preserved dinosaur and marine reptile fossils. Kronosaurus Korner has a modern, fully equipped preparation facility. Visitors to the centre can view fossils being processed in the Laboratory (via the glass viewing window).

The preparation techniques carried out at Kronosaurus Korner are of a world class standard. Some of Australia’s best and most significant fossil finds have been prepared for display in our Laboratory.

Kronosaurus Korner is an accredited Visitor Information Centre. Our friendly staff provide both local and regional information.

Gorge & Dinosaur Country

HUGHENDEN

No place embraces the spirit of the outback quite like Hughenden; it is rich in fossil remains and unique landscapes. Trek along the Kinnaroo Sea Byway and gaze over the open grassland that was once an ancient inland sea. See the layers of time at magnificent Gorge National Park, forever preserved in the rock walls of Australia’s Little Grand Canyon.

Over 1000 fossil specimens from the cretaceous period have been found around the Hughenden district. Fossil varieties include many marine reptiles, Muttaburrasaurus, Huxteria, Spinops, Queensland Ichthyosaurus and a large selection of Ammonites, shells, echinoderms and fish. The Flinders Discovery Centre has a full display Muttaburrasaurus plus a large display of fossil marine life along with other fossils from the local region with some national and international fossils original specimens.

To try your hand at finding your very own fossil, call at the Flinders Discovery Centre for a map and directions.
